Objectives, activities and expected/achieved results:

The training plan designed is assumed to be an HR management tool, made up of actions aimed at improving the competences of each individual and the development of the company. Its realisation will allow the personal and professional growth of employees in line with the goals set and, at the same time, the fulfilment of the company's strategic objectives. The result indicators to be achieved under the project are as follows:

- Percentage of employees who, by survey method, consider themselves more suitable for innovation and management, in relation to the total number of employees covered: 100%.
