

Pact | TEXP@CT - Innovation Pact for Textile and Apparel Digitalization

Project Number | No. 61

Funding Program | Recovery and Resilience Plan (PRR)

Component | C5 – Business Capitalization and Innovation

Measure | R-2022-C05i0101-02 – Agendas / Alliances for Reindustrialization

Consortium Leader | IMPETUS PORTUGAL - TÊXTEIS S.A.

Project Description | The **TEXP@CT** aims to tackle the digital transition challenge within the textile and apparel sector, which is crucial for both Portugal and Europe. This pact seeks to significantly boost the sector in Portugal with the adoption of digital technologies and solutions, enhancing its global competitiveness, resilience, sustainability, and sophistication.

Start Date | 01/07/2022

Completion Date | 31/12/2025

Total Investment | 45,802,698.40€

Total Incentive | 29,157,737.71€

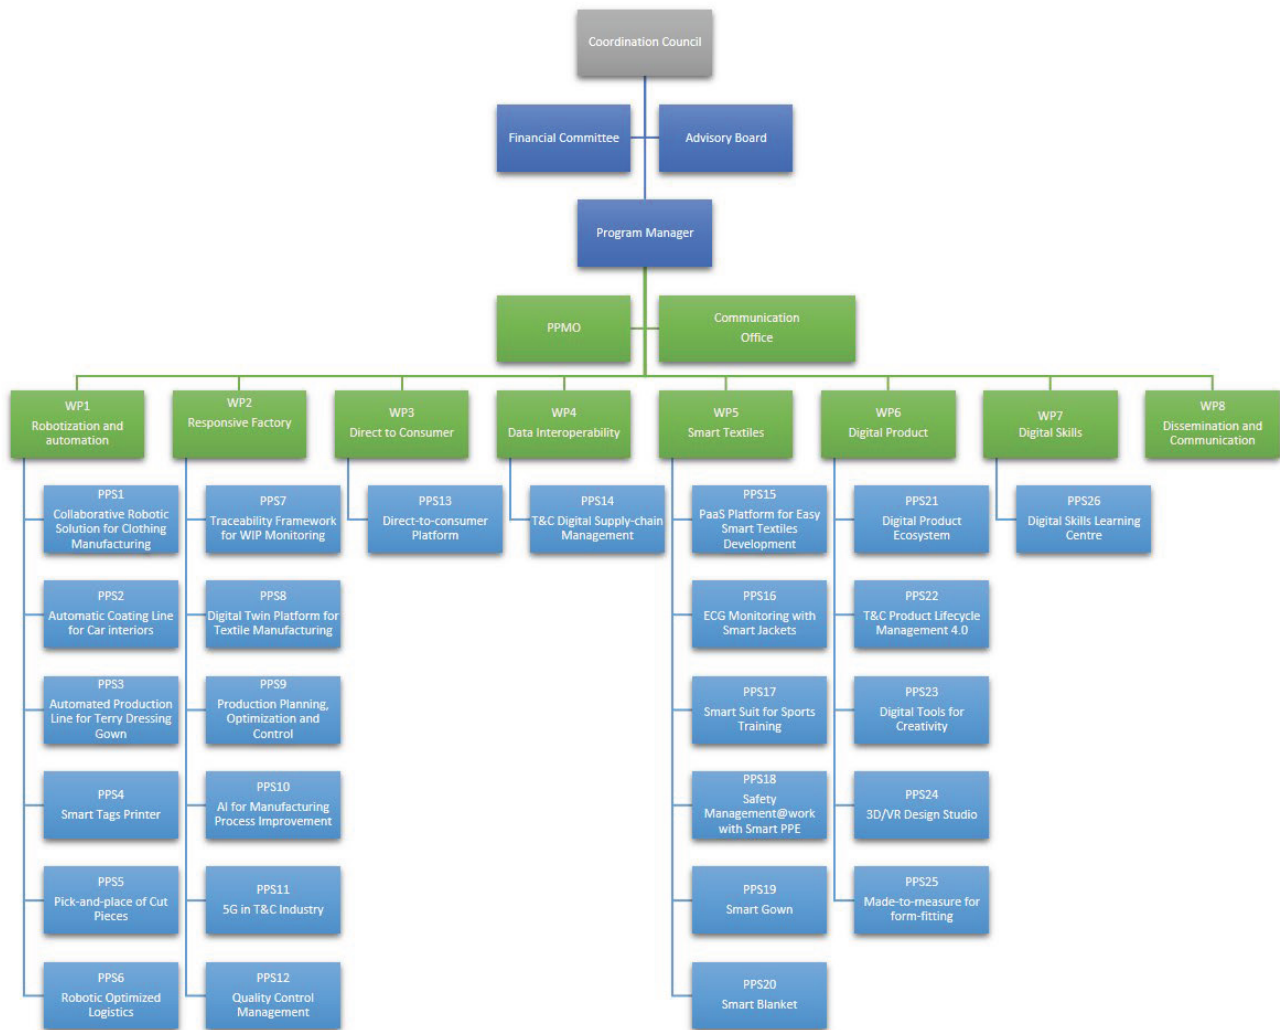

Objectives:

TEXP@CT aims to elevate STV companies and those in ICT and production technology sectors to higher levels of digitalization and technological offerings. Goals include increasing STV companies' digitalization, using leading companies as anchors; fostering industrial pilots as sector beacons; expanding available solutions and technologies for the textile and apparel industry; boosting export volumes with new digital solutions and technologies, and addressing digital skill gaps among industry professionals.

The project is structured into 8 work packages, aligned with the Strategic Pillar of **Digital Transformation** from the Recovery and Resilience Plan (PRR).

Expected Results:

Overall, this pact aims to develop 26 PPS, spread across different work packages.

Beneficiary Entity | ACATEL - Acabamentos Têxteis, SA

Investment | € 380.245,32

Incentive | € 173.748,01

Consortium:

The **TEXP@CT** is led by IMPETUS Portugal – Têxteis, S.A., under the technical coordination of CITEVE, and includes a total of 40 partners, which consist of:

- 16 SMEs and non-SMEs from the Textile and Clothing Industry;
- 17 SMEs and non-SMEs from the Information and Communication Technologies and Advanced Production Technologies sectors
- 6 Non-Business Entities from the Research and Innovation System
- 1 Industrial Association in the Sector
