**Total eligible cost** | 1.123.128,31 EUR  
**Financial aid from the European Union** | ERDF – 673.876,99 EUR

### Project Overview:

This project aims to diversify the range of products, with the introduction of more technical products, with greater incorporation of Know-how and with greater added value, that until then was not possible for the company. According to the promoter, the line of customized stamping will allow to increase the range of materials in which it will be possible to apply direct printing, allowing the use of different fibers, namely cellulose (cotton, viscose, modal, bamboo, lenpur and lyocel).
